

## Our Customers Say "What Pretty Wash Goods"

"They are the prettiest I have seen in years." And we believe they are.

We have the pick of some of the leading manufacturers in the country. No wonder they are pretty. Our stocks are now at their very best. Our choicest patterns that were slow in being delivered are now in our store. These goods were bought months ago before the serious dye trouble. Therefore, they are dyed with good colors. But our advise is, do not delay in buying your Wash Goods. We are closing out piece after piece daily, and no more to be had. If you wait, you are sure to be disappointed. Our large mail order business gives you exclusiveness in style and patterns that cannot be obtained in many other stores.

## GRIP AND NEURASTHENIA

There is a form of neurasthenia that follows the grip. Doctors call it "post-grippal" neurasthenia. One of the foremost medical authorities of New York city in a lecture in the international clinics, said:

"Broadly speaking, every victim of the grip will suffer from post-grippal neurasthenia also. Lowering of nervous tone with increased irritability is the most striking effect of the disease, languor of mind and body, disturbed, fitful sleep and vague pains in the head and elsewhere. The treatment calls for rest and a tonic."

Dr. Williams' Pink Pills, a non-alcoholic tonic, are particularly suited for building up the blood and strengthening the nerves after an attack of the grip. The rich, red blood expels the lingering germs from the system and transforms despondent grip victims into cheerful, healthy, happy men and women.

If you have had the grip get a box of Dr. Williams' Pink Pills now from the nearest drug store and begin the treatment at once.

On request we will send you a free pamphlet, "Building Up the Blood," which contains a chapter on the grip. Address the Dr. Williams Medicine Co., Schenectady, N. Y.
